

IDOC-PAD-LCA-DSC

iPanel® Table Dock for iPad Air®

- > Provides a stylish table dock for the iPad Air®^[1]
- > Transforms the iPad Air into a stationary touch screen
- > Affords seamless control system integration using the Crestron® App^[2]
- > Charges the iPad Air while docked
- > Retains use of the device's microphone, speaker, camera, and buttons
- > Allows for easy docking and undocking
- > Available in smooth white or black finishes

The Crestron® iPanel® Table Dock for iPad Air® (IDOC-PAD-LCA-DSC) provides a very stylish solution for charging your iPad Air^[1] while simultaneously using it to control your home, business, boardroom, or classroom. The iPad Air slides easily into the iPanel, instantly transforming it into a stationary tabletop touch screen. The iPad Air can be removed just as easily from the iPanel to resume portable use at any time.

As part of a complete Crestron control solution, an iPad Air offers a very powerful and practical touch screen controller for home theater, whole-house automation, and commercial AV and room control applications. Crestron Control® is enabled on the iPad Air by downloading and installing the [Crestron App](#)^[2], providing professional Crestron touch screen functionality through a very stylish and highly-customizable graphical interface. Adding the iPanel affords the advantage of tabletop touch screen operation and battery charging.
